PROFILE

Software Engineer with 2.5+ years of experience in developing high-quality software solutions, with a strong focus on clean architecture and agile methodologies.

SKILLS

- **Languages:** C++, C#
- **Frameworks:** ASP.NET 6, ASP.NET Web API, .NET Core 6, Angular 16
- **Cloud/DB:** AWS (CloudWatch, S3, Kinesis, OpenSearch, Lambda, ECS), Microservices, SSMS 19, SQL
- **Tools:** Jira, Bitbucket, Git, Visual Studio, VS Code, Debezium, Confluence

WORK EXPERIENCE

Veersa Technologies

Software Development Engineer

Feb 2023 - Present

- **Analyzed client requirements and led UI/UX and backend enhancements**, resulting in an 80-90% reduction in system errors and significantly improved user adoption.
- **Debugged and resolved** bugs and maintenance of 6+ production databases, ensured seamless system performance across multiple applications.
- **Designed and presented 5+ architectural and deployment proposals**, collaborating with cross-functional and onshore/offshore teams to guide overall project direction.
- **Facilitated detailed client requirement sessions**, identifying key database and application features that led to the successful delivery of a user-friendly interface adopted by 1,000+ homecare professionals.
- **Followed clean code practices and version control standards**; contributed to Agile development processes through daily SCRUM participation and iterative feature delivery

PROJECTS

HHA Exchange

June 2023 - Present

Homecare software platform serving 1.1M+ members/month; reduced errors by 80-90% through digital transformation.

Audit History / Notification Module (HHAX):

- **Migrated legacy services to AWS**, improving scalability by 150%; processed 150M+ records/day using Kinesis, Lambda, and OpenSearch.
- Used S3 for config/log storage, **OpenSearch** for indexing/querying.
- Modernized UI for 3 notification types; **Optimizing and Maintaining consoles in ASP.NET 6** for History processing via triggers in SSMS.
- **Implemented Debezium Server** for real-time CDC and audit history tracking for 300+ tables using **ECR, ECS, S3, Secret Manager**.
- Developed a **messaging microservice** integrating 5 entities with complex business logic, validations and policy compliance.

Payer Module (HHAX):

- **Built user-friendly interface** connecting 100+ payers/providers; enabled aggregation of 234M+ confirmed visits annually.
- **Optimized inter-entity messaging** via job-based syncing between 2 entities - payers and vendors.
- **Maintained and enhanced features** using .NET Core 6, VB.NET and Angular 16 across 2+ solutions.
- **Managed and maintained 6+ SSMS databases**; collaborated across 3+ cross-functional teams, across different time zones.

EDUCATION

Deenbandhu Chhotu Ram University of Science and Technology, Murthal

Bachelor Of Technology – Electronics & Communication Engineering - 8.91/10 CGPA

2019-2023

St. Xavier's Higher Secondary School, Bettiah

Intermediate (PCM) - 90%

2017-2019

Assembly Of God Church School, Bettiah

Matriculation - 10/10 CGPA

2016-2017
